Capto

Feltest Equipment BV, professional instruments for Paper Machine Clothing

3 Good reasons to use the Capto when installing PMC

1. Greatly improves operator safety.
2. Easier handling of delicate or heavy fabrics.
3. It's safe, quick and reliable!

Improve safety during PMC installation

The handling of Paper Machine Clothing can be a hard job. The fabrics are expensive and delicate, but also heavy and difficult to grab. The new Feltest Capto helps making the installation of Paper Machine Clothing a safer job. Safer for the operators; safer for the fabrics.

The main advantages of the Feltest Capto:

- The harder you pull, the stronger it clamps.
- Self-latching – it will never fall off the fabric.
- Use the Capto with a rope – don't climb into the machine.
- Suitable for forming, press and dryer fabrics.

Ease and comfort are good for business!

Many accidents happen due to tiredness and installing Paper Machine Clothing can be a tiring job! The Capto brings so much ease and comfort that the job can be done quicker with less effort. That is good for the operators and good for business.

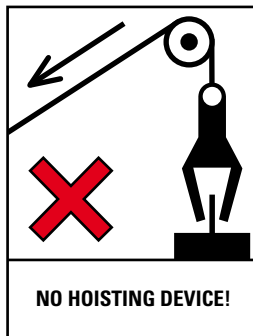

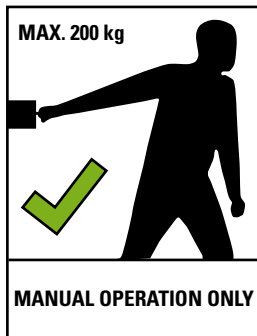

Designed for the Paper Industry

The Capto is, like the measuring instruments of Feltest Equipment BV, developed by people who deal with the Paper Industry every day. It will keep its clamping strength on wet fabrics, is always easy to release and it withstands spray water, dust and corrosion.
